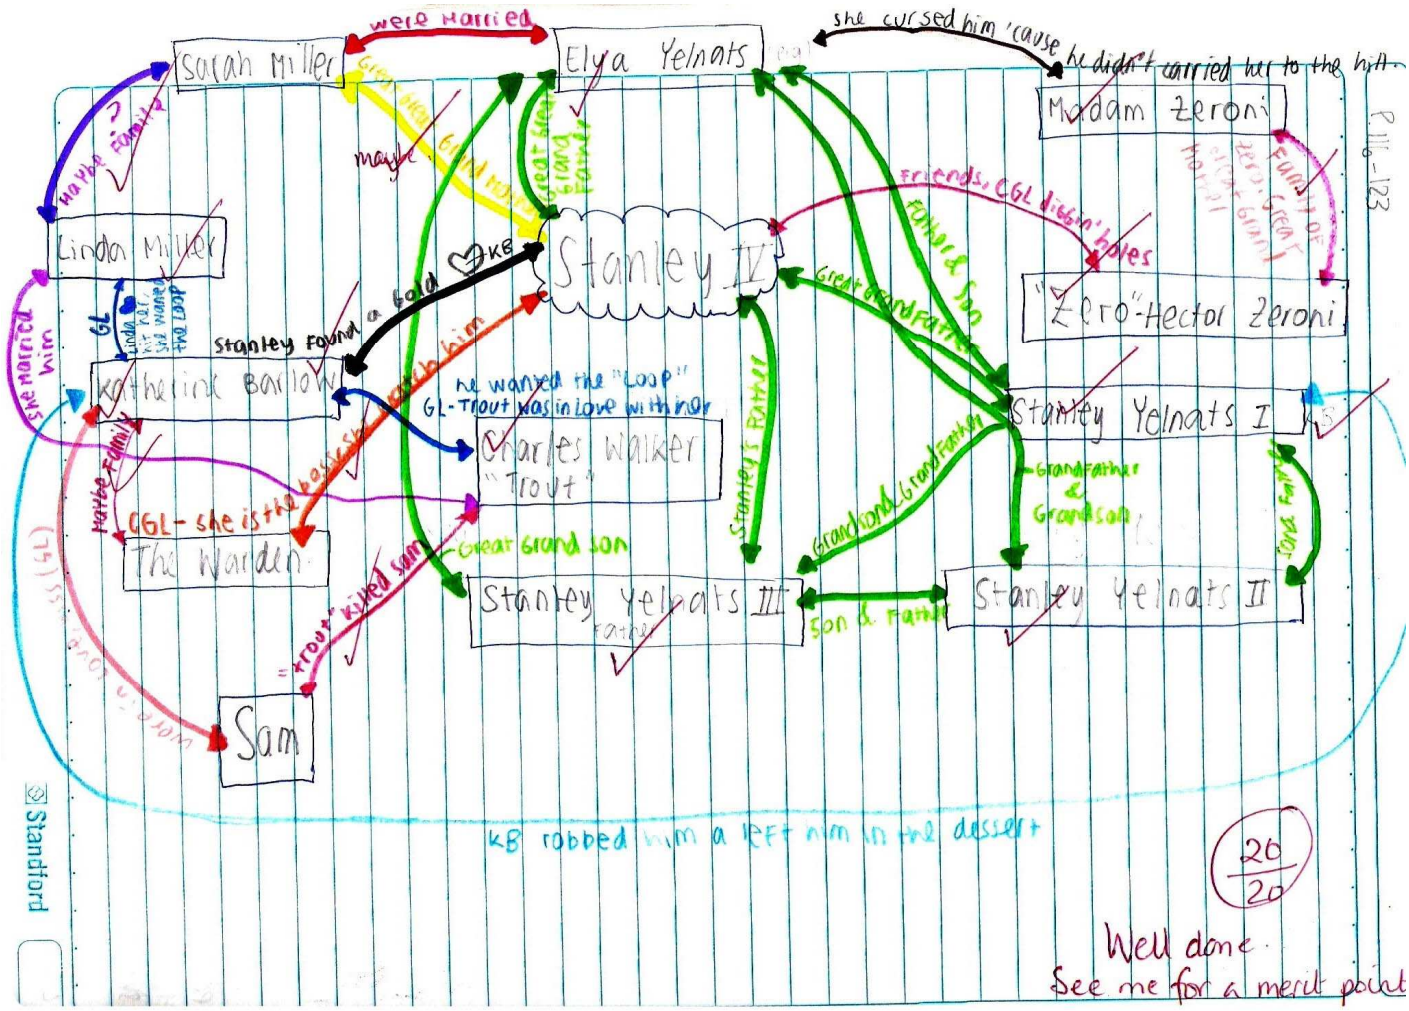
UNDERSTANDING WHAT WE READ

September, 2008

The 4th year pupils, taking the English Course for the IGCSE, read and analyze books with the objective to fully understand them. During the third bimestre they have read a book called "Holes" written by Louis Sachar and as their work they had to do a "mental map" where they established the connections between the different characters in the book.


Their teacher, Kate Day, wanted to point out Fiorella Chacón's extraordinary work for which she got 20/20, showing very good comprehension of the book she read.
